

Ladies and Gentelmenof the FCC, Let it be known that I as a paying customer of satellite radio respectfully urge you to reject the NAB's petetion 04-160. As I pay for these services I expect to enjoy the programming that I chose and it should not be up to the National Association of Broadcasters or their lobbying agents to determine what I should or should not be able to recieve.I plead for your support to allow XM satellite radio to continue providing the kind of programming I demand aad deserve.

Sincerely , Mark D. Settle
